	 ZULTYS	Zultys MX 250	✓	✓	✓	✓

1 - To inquire whether a particular phone model has been certified with a particular platform, please contact your Polycom sales representative.
2 - MGCP models only
3 - MGCP and SIP models
4 - HD Voice means HD Point to Point connectivity is supported within a single business (assumes private WAN connections between sites if IP PBX is used). This requires Polycom HD Endpoints and an HD-aware call server (does not interfere with SIP/SDP negotiation of wideband codec).
5 - Supported in R13 and later
6 - Supported on AOS 15.1 and greater and AOS A1.01 and greater
7 - Included in the AA50 since version 1.1.0.1. Included in Asterisk Business Edition since version C.1.0. Switchvox products in V4.0
8 - Objectworld UC Server™ (SIP and CEBP Editions) version 4.4.0 and later will support the SoundPoint IP 550, 560, 650, 670 and the SoundStation IP 6000, and 7000.
9 - Supported in V3.0
10 -Supported in the Egg Rock release and later
11 -Supported in SIP@Net 4.2
